

DEVELOPER

Location: Nottingham Office

Reporting to: Development Team Manager

Contact: jobs@pepperminttechnology.co.uk

PURPOSE

Developers at Peppermint are instrumental in pushing the boundaries of new technology to make sure that we choose the most appropriate solutions for delivering our software.

This role will be involved across the Software Development Lifecycle ensuring that our products are delivered to a published roadmap within planned release cycles. This includes all aspects of development from concept design, core product changes through to defect fixing.

This role requires a Developer who has experience in a variety of technologies and is looking to enhance their skill set further. The primary technology is ASP.NET CORE MVC and C# and this experience is essential.

Exposure to others such as developing Office 365 Apps, BI, T-SQL, Azure Services or Dynamics 365 is very desirable and although not essential, we are looking for a Developer who has knowledge in different and the latest technologies.

Like everyone at Peppermint, our Developers are passionate about customer service and delivering to the highest of standards. By nature, you will be pro-active, adaptable and results driven, as well as a team player who can work under pressure and be able to use your own initiative and motivation to meet deadlines.

RESPONSIBILITIES

- Design, code, test, correct, and document moderately complex programs and scripts from agreed specifications and subsequent iterations, using agreed standards and tools.
- Work closely with Developers, Test Analysts and other stakeholders through various phases of the project life cycle
- Working with Test Analysts to ensure all raised defects are resolved
- Working with the Development Manager, Product Managers and Business Analysts to ensure all the detailed assigned requirements are fulfilled
- Assume ownership of all work assigned
- Communicate efficiently on progress and report any impediments

KNOWLEDGE, SKILLS & COMPETENCIES

Essential

- Strong experience (2+ years) with C# and ASP.NET CORE MVC
- Good understanding of JavaScript languages, i.e. jQuery, TypeScript or Angular
- At least 2-3 years' commercial experience in a software development environment
- Keen interest in new technologies
- Fast learner
- Excellent problem solver, with ability to think laterally when diagnosing complex issues
- Strong interpersonal skills
- Excellent communicator, both written and verbal
- Able to work as part of a team or on own

Desired

Experience with one or more of the following is desirable:

- Office 365 Apps
- Microsoft Dynamics 365
- BI
- T-SQL
- Azure Services

THE COMPANY
